## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 62-93 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As pointed out by examiners all over the world, it is well known in the art to transfer funds between a central server and a gaming machine. Furthermore, given the critical importance of transferring the correct amounts, it would have been obvious checked that the correct amount had been transferred. Nor can the hardware or network system employed be considered novel.

What is not known in the art is to determined the amount to be transferred based on a set of flags (i.e., Boolean variables). While doing so is within the level of ordinary skill & would certainly yield predictable results, this approach is so different from anything heretofore adopted by practitioners of the art that Examiner believes that an impermissible level of hindsight would be involved in any conclusion that this method is obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
